

## Goodbye Denver?

It has been 7 years since Laura and I launched Master Plan in Denver and it has been two years since we successfully handed off the MPM Denver campus team to the new Campus Director Jesse Denison and his wife Rhonda. The new team is thriving under their leadership and has now grown to 8 staff members with MPM Denver alumni Patrick and Kaylee Stoll joining staff just last month! (And that's not counting us!)

Please watch the 8 minute video (available at [TheKrokosFamily.com](http://TheKrokosFamily.com)) I shot last month of Denver students Alex, Linda, Joe, and Bre sharing what the living God has done in their lives on campus over the last year. Alex shares how he was instrumental in helping another student friend's father come to Christ just before he died of cancer. Linda shares how she felt more alive than ever before because she took steps of faith in evangelism!

These type of examples of God moving in this younger generation are what make Laura and I thrilled to serve God with Master Plan into the future. **We are happy to announce that we are trusting God and taking steps to move to the MPM headquarters in Durango, CO this summer.** Our hope is to be more consistent and effective ministry leaders, serving the 27 other MPM staff members.

We have been serving in college ministry full time since 2003 and can see how serving the staff enables us all to be more efficient and effective in the mission of preparing others to reach and influence the world for Christ. I am currently training new staff, administering the IT team, facilitating ministry wide communication and assisting the President and the Financial Manager in other ways as well. Laura is the Women's Development Coordinator and hosts MissionalWomen.com, a blog that helps women live on mission for the glory of God. We both web master for MPM websites, develop staff resources, and plan MPM-wide conferences and events. Master Plan has been faithful in its calling for 30 years and Laura and I would like to help MPM effectively keep reaching more and more people for Christ for another 30 years.

We put our Denver home on the market last week and pray it will sell quickly so we can move this August before school starts in the fall.

I have also been meeting with some friends to raise additional support this summer so we can hit the ground running in Durango. We thank God that some new folks have joined our team! I would also like to meet with some of you if possible to answer any questions you might have, and to share some of the exciting things God is doing in Master Plan. Laura and I appreciate you very much, and thank God for your prayers and financial support which enable us to serve this great staff team. We are confident that by moving to Durango, MPM will be able to help reach more students on more campuses and others around the world for Christ.

Thank you for praying for our family's transition during this season of change. The kids are doing great, and look forward to Durango. Laura and I lived in Durango from roughly 1996 to 2005, and are excited to connect with many friends in the city where I surrendered to Jesus, where we met, and where God called us to college ministry!

### **Prayer requests for the summer:**

- That God's will would be done in our move with timing and finances.
- For Asher and Austin as we serve with other MPM staff and students to evangelize the "Night Vision" concert in Olathe on July 15th-16th.
- For the staff directors conference we are planning for July 20th-22nd. We want God to show us His will for some big decisions we make during this time.
- For our all staff conference on July 24th-30th. We hope for this time to not only be fun and encouraging but also a time we get to pour into and minister to the staff. Pray we connecting deeply as a ministry family and with the Lord. Please also pray we facilitate training for the staff in several areas of ministry growth well.
